Newmont's Annual Gold Fever Event

Newmont's annual Gold Fever Event was held on December 3rd. 150 children from both Wendover and West Wendover attended.

Newmont Makes Dow Jones Index

For the eighth consecutive year, Newmont has been named to the prestigious Dow Jones Sustainability World Index (DJSI World). This recognition underscores Newmont's commitment to sustainable business practices and further demonstrates your commitment to making Newmont a global leader in safety, environmental stewardship and social responsibility. Annually, the DJSI conducts an extensive analysis of our economic, environmental and social per-

formance, assessing areas such as corporate governance, water-related risk management, climate strategy, labor practices and stakeholder engagement. Inclusion on the DJSI World, one of the most rigorous and reputable sustainability indices, is important for many reasons. Our competitive advantage and long-term success are linked to our sustainability performance, which is detailed each year in our Beyond the Mine report. As the competition for

inclusion on the DJSI World increases, it is critical that we continually improve our economic, environmental and social performance so that we remain on the index for years to come while increasing the shared value we create for all our stakeholders. Thank you for helping make Newmont safer and more successful and for demonstrating that sustainable and responsible mining can create value and improve lives

Newmont's Red Nose Reindeer Christmas Tree

Newmont decorated this Rudolph the Red Nose Reindeer themed tree for the Wells Tree Festival. Along with a tree donation, each festival, Newmont also bids on a tree to donate back to the Wells Family Resource Center to give to a family in need.

Pamela Smith, Newmont External Relations Specialist, poses with the Newmont tree.

Our Vision

We will be the most valued and respected mining company through industry leading performance.
